Good afternoon. This testimony is in opposition to a proposed statewide property tax in Oregon. It simply is not necessary as an additional property tax or as a replacement for the local property tax currently in place. Those who are in the public's service can certainly do better on our behalf by a thorough thoughtful audit of all state departments budgets. There are then creative ways of funding the perceived needs within those budgets, I am confident. Thank you for considering one senior citizens wishes. Sincerely, LiseAnn Luce
