

Submitter: Byron Hillier
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

This bill would drive most retirees that i know into foreclosures as they have set incomes A 400,000 dollar home now assessed an extra 10k in taxes? How about make drugs illegal so people stop coming here to be junkies and ruining Oregon for the rest of us. Then you wouldn't need to tax people out of their homes and land. Suspend the UGB and eliminate planning and building fees for contractors and we will build homes again without any spending by the government. Trying to tax all of Oregon to fix self induced problems is not the way to solve problems in this state.
