

Submitter: Greg Oja

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

Please do not consider this proposal, we are one of the most taxed states in the nation, with very little to show for it.

Before we propose more taxes we should have a comprehensive audit of all state agencies to show where the money we have paid has gone.

Our roads are horrible, our recreation areas have been closed or gated off.

My kids cannot afford a home in this state due to the restrictions on urban growth yet we are surrounded by land that is not being used.

Please clean up your spending, make a budget and stick with it.
