I oppose this plan as it has no limits and will affect people who will not be able to pay their taxes as they continue to rise making them loose their property that they have worked hard all their lives. I understand the need to help homeless but not to the detriment of those that will become homeless due to unrestrained spending and funding sanctuary for people who should not yet be allowed into the country, yet our taxes fund those as well. Please really review the spending and cut things that we should not be spending on instead of raising taxes on those who already cannot afford it. We are retired and have to go back to work which shouldn't happen. This will guarantee that we would loose our life's work as the increases keep coming unchecked and no recourse.
