

Submitter: Professor Dave White

On Behalf Of:

Committee: House Committee On Education

Measure: HB4161

This is ridiculous. This is not needed. The NEA has screwed up the public school. National Education Association (NEA)

? The NEA has twisted and fractured our student's ability to learn under any recognizable educational system.

? The NEA is the cause of the declining test scores with their teaching to the lowest educated student in a class.

? The NEA removed hunter's safety courses from schools. No child is taught proper use of a gun.

? The NEA removed discipline from the schools. No teacher or principal can discipline any student for any reason.

? The NEA is the cause of school shootings. With no discipline, violent video games and abortion, Life is seen as cheap and the schools do nothing to change it.

? The NEA changed the scientific method to a "consensus". They have eliminated the student's ability to learn from any recognizable scientific education standard. The scientific method is: Hypothesis with confirming data goes to theory, with more confirming data goes to scientific law.

? At Hymark we teach the correct scientific method.
