

Submitter: Justin Johnson

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

This bill is a gross overreach of government! This will force people in rural areas to pay higher tax rates set by bureaucrats in larger cities. Many people in rural areas of Oregon live there because they cannot afford to live in cities or they do not feel the city politicians represent them well enough! I am in strong opposition of this measure and I ask that you think forward and look at how this will harm many of our less fortunate citizens. Thank you and I look forward to this bill not passing!
