

Submitter: Michael Dyer  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: HJR201

Please do not pass HJR201! We cannot afford any higher property taxes. I've written to our state legislature previous about the high property taxes here in Oregon and heard nothing back. We are seniors and can't afford to pay our property taxes now. If they are raised again it will force us to sell our home and move out of state. Just the thought that you would consider raising our property taxes is completely disheartening. Oregon doesn't give seniors a break and it seems you are trying to run us out of our home? It's bad enough that the cost of everything has sky rocketed and us seniors are barely hanging on. Now you want to raise property taxes at the state level....Really? We cannot afford to pay any higher property taxes. We are barely keeping our heads above water as it is and besides property taxes already go up minimum of 3% a year which is already too much for us seniors. Please do not pass HJR201!
