

Submitter: Meridith Foley  
On Behalf Of:  
Committee: Senate Committee On Education  
Measure: SB1583

I am writing this statement in opposition of SB1583. This bill basically communicates that local school boards are unnecessary and that a small cadre of people in Salem claim to know what best for all students, families and educators in the entire state. This bill undermines the integrity of individual professionals, families, community values across our great state. This bill aims to strip parental rights, therefore discriminating against anyone who has a belief or value in opposition of so-called 'leaders' in Salem. This "anti discrimination" bill is fully modeling discrimination acts against families across our once-great state.
