

Submitter: Jessica Stover
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB1576

I am a strong supporter of SB 1576-3, restoring recreational immunity within Oregon. This bill clarifies the existing recreation immunity law, ensuring the law fosters an environment that protects those who allow recreators onto their land freely and for the public. Keeping recreation universally accessible without the threat of litigation stopping the development and maintenance of Oregon's trail systems. As a trail user and recreator in the state of Oregon I feel a strong tie to our publicly accessible lands, use them weekly, and find they greatly improve my quality of life. Trails and the outdoors are what make Oregon the special place we all know it to be. Not passing this bill will result in the continued closing of public spaces due to threat of litigation. All 50 states have recreational immunity. Restore Oregon's.
