

Submitter: Doris Noland

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

Once again I do not understand why our state government thinks they need to take control out of local government . You need to do what you were put into office to do and not continue to try and overreach your duties, local governments , school boards and parents know what is best for our children. Look at how bad our state situation is in because of stupid decisions that were made for everyone. I strongly oppose this SB 1583. You need to concentrate on making our state great like it was before you legalized so many drugs and started all the issues drug addiction causes .
