

Submitter: Lisa Crawford
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB1583

I am greatly concerned about the direction our "schools" are going. Parents should be the ones that decide what THEIR OWN children learn (you would not want someone teaching your children doctrines, or supplying/making available reading material, that is contrary to your firmly held values). I am implore you to oppose SB1583 on behalf of the constituents you have pledged to represent.
