

Submitter: James Ullrich  
On Behalf Of:  
Committee: Senate Committee On Education  
Measure: SB1583

I deeply oppose this bill. I don't want sexually perverted books in school libraries. Everyone discriminates there's nothing wrong with that. You lock your doors when you're not there. Why, you're discriminating against burglars. We have a registry of sex offenders why so we can know about the people in the neighborhood where we might be moving our children into, because we love our children and it's our responsibility to protect them, that's discrimination. With the terrible scores in the schools, maybe get your fascination of sex out of school and teach the kids how to read and write and maybe some math. Maybe that's what you should concentrate on so we could get above 50th rated school system. I believe in discrimination against evil and that's what gender ideology is.
