

Submitter: Larry Larson

On Behalf  
Of:

Committee: Senate Committee On Veterans, Emergency Management, Federal  
and World Affairs

Measure: SB1548

I want to thank all involved for the effort to make standard time forever the standard of Oregon. The twice a year changing of the clocks is senseless, frustrating, and many suffer sleep problems related to the sudden change of hours. This, in my experience in the workplace, causes significant safety problems for some people who just can't adjust in a day. Personally I'd gladly give up an hour of daylight in the summer to be better able to enjoy a moonlit evening on my back porch.
