

Submitter: Mary E Lang  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: HJR201

Dear Senator Steiner and Representative Dexter: We oppose any more property tax hikes or gimmicks that do the same.

Higher property taxes hit people on fixed incomes (seniors and disabled people) because they are unable to increase what they earn.

It will throw seniors and disabled out of their homes (they can't afford it)

- Make Oregon's affordable housing crisis even more unaffordable.
- Make Oregon one of the higher property tax states in America
- Make housing unaffordable for younger first-time home buyers.
- Encourage endless taxation once SJR 201 removes Constitutional limits/protections

Please vote no on this proposed amendment.
