

Submitter: ELAINE LAVINGTON

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB4013

I support HB 4013. Currently in Douglas County we recycle all glass, which includes wine bottles. Glass recycling in Douglas County started back up in 2008 as the result of an ingenious idea developed, researched and implemented by the cooperative efforts of our Douglas County Public Works and Solid Waste Management team. The glass brought to Transfer Stations will be crushed and repurposed for leachate filtration, as an aggregate substitute and also as foundation support at the Douglas County Landfill. Other landfills should do the same.
