

Submitter: ELAINE LAVINGTON

On Behalf Of:

Committee: House Committee On Education

Measure: HB4161

I support HB 4161 I think that a parent knows which school is more appropriate for their child. The parent and child should have the ability to choose the school that fits the child's needs. The public schools is not a one size fit all. I feel like a child should be able to attend a school of the parent and child's choice.
