

Submitter: Brice Suprenant

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: SB1572

Thank you for pushing to make this legislation a reality. As someone that commutes monthly from Portland to Medford I have first hand, regular experience with making this drive and how great the need is for alternative means of transportation. Several years ago when I accepted my current position I researched all the bus and train options in Oregon in general and was astonished at how difficult it is to travel the state without a car. We need more public transportation options and this one specifically will have such a huge impact.
