

Submitter: J Clarke

On Behalf
Of:

Committee: Senate Committee On Veterans, Emergency Management, Federal
and World Affairs

Measure: SB1548

Please pass this bill. As someone who suffers from SAD (seasonal affective disorder), it would make such a big difference to have more light in the morning. It's a more natural-feeling time, it just seems right. The constant time change back and forth twice a year is so unnecessary. It takes awhile to adjust to it, then you have to do it all over again. Thank you for considering this bill in the short session!
