

Submitter: Lidia Lewczuk

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

Absolutely, positively NO!!! How dare you try to sneak this money grab bill through! Yet another example of taxation without representation. There is absolutely no accountability in the Oregon taxes that already have been collected from the people. There is a surplus of funds that Oregon is already sitting on and you dare to try to take more for "special projects & PERS. Instead of looking for ways to take hard-earned money from hard-working people Learn to live within the budget allocations that exist. The every day person has to live within their means - we expect the government to do the same!
