

Submitter: Amanda Herr
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB1583

I am a mother of three children, one who is in public school as well as a licensed teacher with 5 years of public school teaching experience. I enjoy volunteering at our school events and in the classroom every other week as well. I see the work that goes into organizing and planning for the learning of our children. I believe that it is crucial for all people to have a part in selecting educational materials for our community schools. Please consider my vote in opposition of prohibiting discrimination. Thank you for your consideration.
