

Submitter: Wallace Keeney
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

Already with rising interest rates being a new home owner it sometimes is difficult to make due even while being a dual income household, working a blue collar job, putting in the 10 plus hour weeks just trying to survive. If property taxes increase that's just one more expense to have to worry about and potentially lose my home. Oregonian do not support this measure in any way shape or form! Taxation is theft! We are taxed on the money we make, we are taxed on the property we live on and maintain. Why is the common working man stuck supporting the spending of public servants who do not have our best interests at heart? Enough is enough. We oppose! Stop with the wasteful spending. Stop nickel and diming the citizens at ever turn!
