

Submitter: Debra Brown
On Behalf Of: self property owner
Committee: House Committee On Rules
Measure: HJR201

Oregon has a spending problem. Taxes are already burdensome and too high. Businesses are leaving our state. We need an audit of all spending and where the money is going before any new or expanded taxes are even hinted at. Programs that do not have legitimate goals & objectives and PROVE their outcomes are not successful, have to be eliminated. We need to get back to true needs being met with our tax dollars, NOT wants. An example: building bike paths when we have roads that are collapsing. A bike path is not necessary-it is a want. Road safety is a must or need.
