

Submitter: Clinton Michael

On Behalf
Of:

Committee: Senate Committee On Veterans, Emergency Management, Federal
and World Affairs

Measure: SB1548

According to many, many scientists, “Standard time provides a better opportunity to get the right duration of high-quality, restful sleep on a regular basis, which improves our cognition, mood, cardiovascular health, and overall well-being.” Let's follow the science and help improve the lives of all Oregonians with one simple change.
