

Submitter: Tony Newbill
On Behalf Of: All Property Owners
Committee: House Committee On Rules
Measure: HJR201

Dear Legislators , please consider retaining outside financial consultation on how best to balance receivable's and payouts for PERS before taxing property because these 2 articles layout the mismanagement practices that have led to this infliction point .

When you read this Oregon Live article it talks about how PERS payouts need a new Financial Advisory Counsel , and Legislators need to debate this mismanagement of Pension allocations , and needs clarification before Oregon Citizens have to bare the costs these mismanagement practices with property taxes like the Street Roots talks about as a potential solution !!!!

<https://www.streetroots.org/news/2022/08/25/pensions>

Look up how much Oregon PERS retirees receive in pension pay
