

Submitter: Chris O'Neill

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

Honorable Chair and Members of the Senate Committee on Education.

I whole-hearted support this measure as a way to curb culture war excesses like book banning. Parents have power and influence over what reading material their children can access, but some parents shouldn't be able to prevent other parents from different decisions about what is appropriate.

Please support this bill.

Thank you.
