

Submitter: Donald Chellis
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

Hello,

We are overtaxed already, especially given the current economic conditions. Everything is more expensive, and prices are not likely to come down if the economy gets better. If this passes you will likely see a mass exodus from Oregon. How is this a good idea? It is more money grubbing from people that can't afford it. You are killing the middle class which is the backbone of this state and country. Seeing how that is the main goal of socialism and communism it is not surprising that you are trying to pull this off. More of same BS in Salem.
