

Submitter: Sarah Hollingworth

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure: HB4086

Chair Reynolds and the Members of the House Early Childhood and Human Services:

We are supporting (endorsing, in support of, etc.) HB4086.

Our organization provides outpatient mental health supports to youth 0-24 and their families, Behavioral Rehabilitative Services treatment foster care supports for youth 4-17 who are ODHS involved, as well as crisis respite for youth 4-17 with OHP coverage. We work closely with many systems and diverse populations in the community of Southern Oregon, specifically Jackson and Josephine Counties.

This bill would encourage consideration of a system that works better and is more responsive for youth and which will incentivize our staff to stay with our agency longer and develop these types of important relationships which lead to successful outcomes.

Please support this important legislation today.

Sincerely,

Sarah Hollingworth, LPC
