

Submitter: Diedre Conkling
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB1583

Please support SB 1583

We want our children to be ready for the world and to learn about themselves and the diversity of people in the world. We want them to have access to complete and accurate history of our country and the interaction of peoples and cultures around the world. SB 1583 is a move in Oregon to continue to have strong anti-discrimination laws that support our citizenry, including our children.
