

Submitter: Kimberly Kennedy

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

I oppose SB1583. The State of Oregon does not have the right to make decisions that have been granted to parents and School Boards. It is a usurpation of power and authority. Parents have every right to oppose the pornographic material coming into our libraries. Parents have rights to oppose transgender assignments by the State upon our children and its community. I have raised 3 grown boys and believe the school must focus on academic excellence and not social issues. The State has no right to override the parental control.
