

Submitter: Kelli Munro
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

The State continues to ask for more money from already struggling taxpayers without fixing areas where they are wasting money. Oregon is already one of the highest taxed states and here citizens are being asked to pay more. Gov Kotek wants affordable housing and to help the homeless issues get increasing property taxes will cause more people to be unable to afford homes and/or pay their bills. Oregon government is wasteful and needs to cut the fat just like the private sector has to. Quit using public safety, schools, healthcare as scapegoats and fund what is necessary and cut the needless waste throughout the bloated state government budget. Maybe eliminate many of the 6 figure salaries for people who don't do anything. Maybe take a pay cut for the highest paid people just like all the underlings have been having to do. With inflation and lack of raises I've continued to take huge pay cuts while others around me get raises. Stop stealing our money!
