

Submitter: Timothy Gilman

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

How can legislators try to pass statewide tax measures without allowing the voters to have significant notice and debate? This should be a ballot measure, not something done hastily. This will impact many families negatively and get worse over time. This is why people do not trust government. Why would the legislature punish homeowners and to what end? Oregon taxation is driving us out of this state that was at one time a bastion of freedom. Shame.
