

Submitter: James Weigel
On Behalf Of: Tax payer
Committee: House Committee On Rules
Measure: HJR201

Already paid taxes for the safety of my community your legislation is creating the problem more money is not going to stop it I was born here in Oregon in 1959 and I've Seen It Go from a beautiful safe state to one of the worst states in the Union the only thing that has changed is a direction that we're going is dirty unsafe and we're losing the beauty every year and forced the laws we have and stop handing out special rights that take rights away from other people clean it up stop wasting money there's more Revenue now than when this great state of Oregon had its beauty money is not the problem it's the outside influence go back to work for Oregon as you was elected to do and vote no on anything that changes the Constitution thank you
