

Submitter: Michael Sears
On Behalf Of: Self
Committee: Senate Committee On Education
Measure: SB1583

Greetings:

I write to oppose SB 1583 in its entirety due to the subject of discrimination that is to be determined by the State. The State government of Oregon has for decades interfered with citizens' rights and freedoms as well as leading our public schools into failing student performance. The undefined "discrimination" issue of the bill gives no confidence to the public that there will be decisions made that would support our freedom of choice or a well-rounded education.

The performance of the State public schools has failed entirely in the performance of our children's education and continue year after year. Refer to the Oregon Department of Education's Oregon at -a- Glance School Profile report as a reference of their failure to educate our children.

Respectfully Submitted
Mike Sears
