

Submitter: Jordan Portier

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

I completely support SB 1583. Historically, public schools have ignored the voices of marginalized groups and we've seen how it's effected our communities. Our children deserve diverse learning materials and schools should not be allowed to prevent access to information. Respect the intellectual freedom of Oregon children- it is critical to receiving a quality education.
