

Submitter: Randy Gay

On Behalf Of:

Committee: Senate Committee On Natural Resources and Wildfire

Measure: SB1590

Thank you all for your consideration of this Bill. This Bill will have a positive effect on the consumer, local dealer and local families that enjoy the river for all it has to offer. I understand the desire to protect, share and maintain the great gift that God has given us in the beautiful natural resources He has created and I think we can correctly manage those resources without swinging the pendulum too far from one side to the other. Please support the balance this Bill brings to the use, care and maintenance of this amazing stretch of the river. I am hoping you all will see that with a balanced approach we can all benefit.
