Committee: Senate Committee On Human Services

Measure: SB1591

I fully support increasing the licensing capacity of adult care homes (ACH). ACHs have consistently provided care with higher satisfaction reported both from residents and their families. Even with an increase in capacity, the ratio of residents to caregivers are still the best in the state. The need for is high for great, consistent care.

Washington state has increased their capacity in care homes with great results, so we know that not only is it possible but also successful.
