This is a no brainer for sure. Who would want their taxes to be played with and taxes set by the legislature? I and everyone I have talked to strongly disagree with this choice. So, sure maybe you could put it out there for a vote, but why waste the money and time to even try that. I dare you to find a majority of the people of Oregon that would even consider such a change to our present tax system. Oregon is already one of the most highly property taxed in the country.

I say "NO"!!!!!!
