Committee: Senate Committee On Veterans, Emergency Management, Federal  
and World Affairs

Measure: SB1548

I am writing in support of remaining in standard time year round. The change is unnecessary and results in a wide array of inconveniences, especially for families with children. My kids' school starts at 730, which means a good chunk of the year, they're waking up and going to school in the dark. Standard time would help decrease these days. Thank you
