Measure: SB1583

I am writing to urge Oregon legislature to pass SB 1583. It is vital to make laws prohibiting book bans, which is what happened in Germany in the 1930's. We cannot afford to kid ourselves about what is happening with book bans, attempts to wipe out all representation for protected groups by discriminatory laws and the spread of hate & division. Book bans are an abomination and this legislature must stand strong for the rights of Oregonians...ALL Oregonians.

Thank you
