

Submitter: Sarah Freeborn
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

Please do not pass this measure! You'll drive families away from homeownership and or out of the state of Oregon. My elder father keeps seeing his property taxes rise each year. He's retired and on a fixed income. He can barely afford the current tax, plus all the bonds that are also currently attached to his property taxes. Oregon needs to start making positive changes to better this state and this; would most certainty, not be one of them. In conclusion my family cannot sustain the increase in tax either. Oregon is taxing us to death! There will be no way for us to afford the ever increasing tax that comes with this measure. Please stop it now!!!
