Committee: House Committee On Rules
Measure: HJR201

The Governor has correctly declared a crisis in affordable housing and homelessness. Imposing a new statewide property tax exacerbates this crisis, making housing less affordable and causing the homeless population to increase, harming those already at risk of becoming homeless. HJR201 increases problems and makes no sense at all. Common sense tells us to strongly oppose this bad idea. Public safety is properly and adequately addressed at the county and city level.
