

Submitter: Matthew Craner

On Behalf Of:

Committee: Senate Committee On Natural Resources and Wildfire

Measure: SB1590

Open waterways should be a right in the State of Oregon. Proper management must be expected to allow maximum public use while protecting the natural resource. The previous bill was clearly written to protect the few (wealthy) home owners who cared more about seclusion and maintaining they "elitness" rather than the health of the river. The river can be open to all if proper enforcement is applied. I support this bill.
