

Submitter: Kathleen Veenstra

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

I am writing in support of SB1583 which will prohibit discrimination in the selection of textbooks, instructional materials, program materials and/or library materials used in the public schools. I have had a lengthy career of over twenty years in public education as a school counselor. Public schools are fundamental to the health of our democracy and we cannot achieve true educated thinking by discrimination.
