

Submitter: Magdalena Baxter  
On Behalf Of:  
Committee: Senate Committee On Human Services  
Measure: SB1591

I am a MD , also an operator of an adult care home.  
The need to increase the care home's capacity at 6/7 residents it's been long overdue. We offer better care than the big facilities and we promote a warm and a supportive environment not only to our residents but to their families also. We are a big family and we would like to offer a quality care to more elderlies in our community. There is the possibility to open a different home but that dissipates resources and makes managing the care: the home operation more difficult and less feasible.  
Thank you for your attention to this matter
