

Submitter: Cheryl Sproul

On Behalf Of:

Committee: Senate Committee On Natural Resources and Wildfire

Measure: SB1590

Restoring carefully planned zones along the Newberg pool is sufficient in addressing the majority of stakeholder concerns given the studies and evidence available. We have lost a significant amount family time together on this public river these past few years that has been vital to us as a family unit. As an example: I strongly believe that being able to go to the river during covid saved us from experiencing a variety of negative mental outcomes that we see many continuing to struggle with today. "A family that plays together, stays together". We strongly support this measure!
