

Submitter: Clay Tillman
On Behalf Of: Self
Committee: Senate Committee On Education
Measure: SB1583

I am Opposed to SB 1583 on these considerations.

1- The state would effectively be mandating educational materials sent to local schools. This violates Parental Rights to determine the content of their children's Education through their Elected Local School Board's authority, both public and private.

2. Section 1 [(5)] (e) contains a description that is based on an ideology from flawed data and is NOT scientifically supported as an immutable characteristic according to Evidence Based criteria and available Research Data and can be inherently transitory by its nature. I will gladly provide data upon request.
