

Submitter: Jim Rabe  
On Behalf Of: Hjr 201  
Committee: House Committee On Rules  
Measure: HJR201

Please do not move forward with this bill. It will remove the will of the people on measures 5 and 50, add undue burden on small business on determining taxes on inventory, equipment and property. The bill removes limits on assessment, and rate of change on property tax, which would cause undue burden on fixed income and disabled persons. The power to raise property taxes would shift from county to an administrative body controlled by the legislature. This would be a very poor decision. Please do not support.
