Committee: Senate Committee On Veterans, Emergency Management, Federal
and World Affairs

Measure: SB1548

We live in a state known and valued for its outdoor recreational activities. Standard time just makes it harder for everyone to enjoy those activities in the fall and winter months. All because it gets dark when the majority of people get done working. We have to remain indoors due to cold weather. Don't make us remain indoors because there's not much to do when it's dark outside.
