

Submitter: Alan Mason
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

Regarding HJR201, this is absolutely ludicrous. This change is clearly a covert measure to destroy capitalism. Our state can be governed with a fraction of the current taxes imposed. Every employed Oregonian already pays taxes to run the state. We deserve to live in a home that we already paid for, and already pay property taxes on for our local services. Kill this bill immediately! Otherwise, you will drive everyone out of the state and our economy will collapse – even more than it already has.

This is too much power in the hands of few, and it would be almost impossible to reverse.

Sincerely,
Alan
