

Submitter: Karen Snider
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

To whom it may concern:

Please consider this my opposition to bill HJR 201, granting authority to fund public safety through a state property tax. Most all Oregon families are struggling now with all the high costs...in fuel, groceries, insurance and current taxation. This proposed property tax will hit elderly and disabled, with fixed income, especially hard. I'm not a rich person, but have worked hard all my life and it becomes more and more difficult to make ends meet. Please listen to the people and do not pass this bill. Thank you.
